Price per unit for units accrued within membership. The price for units in excess of your monthly accrual can be purchased at the discounted rate stated.

Memberships are subject to rules and limitations. Please see Membership Contract for specific limitations, however, please note:

- Units can only be redeemed once they are accrued. Units accrue monthly: For Example: A Botox Bronze 15 Membership would accrue 5 units of Botox a month so that by the time treatment was needed you would have accrued 15 units of Botox.
- A 12-month commitment is required.
- Pricing is only available to members and cannot be transferred to friends or family.
- Manufacturer rebates and/or points cannot be applied towards your monthly membership fee but can be used to pay for any additional neurotoxin used.
